Fictional Greenfield School Waste Report

Invented learning and testing material. These are not real statistics.

The school has 20 classrooms; 12 have labelled sorting bins and 8 do not.

The lower school has 10 classrooms and 7 labelled sorting bins.

The upper school has 10 classrooms and 5 labelled sorting bins.

The school office supplies replacement labels to classroom monitors.

Collection information appears on the school noticeboard.

Fictional sorting instructions

Read the displayed sorting label before putting an item into a bin.

The school office supplies replacement labels to classroom monitors.

Collection information appears on the school noticeboard.

Students ask a classroom monitor when the displayed instructions do not identify an item.

The canteen displays a sorting guide beside its exit.

Classroom monitors record missing or damaged labels each Friday.
